

Car for film work

Seamus,

Hope all good with you.

Could you have a look at the attached please. The request for the use of a car for some film work is coming from Susanne at the Dundalk Institute of Technology. This is an area covered by members of the NEVVCC. Maybe someone could help.

Regards,

Myles.

Hello Susanne

Thank you for your email about a 1970s car. I will circulate it to some people who may be interested.

Every success in your venture.

Regards

Bernadette Wyer

IVVCC

**Subject:** car rental

Hi,

My name is Susanne and I am a 4th year student at DKIT. I was hoping you would be able to help me out, or point me in the right direction, in terms of using a 70s car for our crime drama. This would be for my groups final year major project at the college and would be fully insured by DKIT. It would be filmed under Covid regulations and all paperwork can be provided. We are making a crime drama and think that a 70s style car (Starsky and Hutch feel or something less flashy) would look really well on camera.

Please let me know if this could be arranged. We would need the car for the following times and days.

Day: 03/05/21

Time: 19:00-20:40

Location: North hill, Kenure, rush

Day: 05/05/21

Time: 20:00-21:00

Location: Dundalk institute of technology campus.

The owner of the car would be able to drive during the filming. No student will be driving the car.

Looking forward to hearing from you!

Thanks a million

Susanne Evers
